

# SafŒno<sup>TM</sup> VR 44

## FOR SAFE FERMENTATIONS AND PRISE DE MOUSSE

# Ingredients:

Yeast (Saccharomyces bayanus\*), Emulsifier: Sorbitan monostearate

\* According to « The Yeasts, A Taxonomic Study » 5th edition, C.P. Kurtzman, J.W. Fell and T. Boekhout, 2011

## Origin:

SafŒno™ VR 44 was selected for its excellent fermentation characteristics and its suitability for sparkling wine making conditions (Fermentis selection).

## **Enological characteristics:**

- Fermentation abilities:
  - Fast fermentation start and fast fermentation kinetics
  - Recommended maximum alcohol: up to 16% vol./vol.
  - Recommended temperature range: 10-30 °C (50-86°F)
  - Very good fructose assimilation
  - Very low nitrogen requirements: Ratio YAN (mg/L) / Sugars (g/L): from 0.7
- Metabolic characteristics:
  - Killer phenotype, very good settlement strength
  - Very high acidity maintenance
  - Medium production of volatile acidity
  - Very low production of H<sub>2</sub>S, medium production of SO<sub>2</sub> and medium-high combination
  - Medium high production of higher alcohols and acetate esters, very high production of ethyl esters

# Suggestions of use:

#### • Base wines and Prise de mousse

SafŒno™ VR 44 expresses all features that are suitable for high quality base wines intended to produce sparkling wines through the classic method, i.e. crispness, freshness and frankness. It is also particularly adapted to secondary fermentation (in bottle under the classic method particularly or in tank).

#### · White wines

Ideal for fermentations under controlled temperatures (on Chardonnay, Sémillon, Trebbiano, Malvasia, Pinot Griggio...).

#### Red Wines

Given its fermentations characteristics, SafŒno™ VR 44 allows the production of prestigious red wines fine, neat and with terroir characters (Cabernet Sauvignon, Merlot, Carmenère, Barbera, Sangiovese, Teroldego...).

SafŒno™ VR 44 is convenient for all types of applications even in difficult wine making conditions.

## **Usage:**

Lesaffre know-how and continuous yeast production process improvement generates an exceptional quality of dry yeasts able to resist to a very wide range of uses, incl. cold or no rehydration conditions, without affecting their viability, kinetic and/or analytical profile. Winemakers can choose usage conditions that fit the best their needs, i.e.:

#### Direct inoculation

Pour the yeast on the surface of at least 10 times their weight of must (possibly directly on the top of the tank or during tank filling after settling for whites and rosés). Gently stir to avoid or break clumps. Immediately transfer into the tank via a pumping over with aeration (or homogenize tank volume).

• With prior rehydration

Pour the yeast on the surface of 10 times their weight of tap water at room temperature. Gently stir to avoid or break clumps. Wait for 20 minutes and transfer into the tank via a pumping over with aeration.

## Dosage:

Still white & red wines: 20 to 30 g/hl

Fermentation restart (specific preparation protocol upon request): 30 to 40 g/hl Prise de mousse (specific preparation protocol upon request): 15 to 40 g/hl

# Packaging:

Carton of 20 vacuum-packed sachets of 500g each (Full box net weight: 10 kg)

Carton of 1 vacuum-packed box of 10 Kg (Full box net weight: 10 kg)

### **Guarantee:**

The high rate of dry matter of our yeasts assures an optimum storage in its original packaging at a temperature not higher than 20°C (during 3 years) and 10°C for an extended storage (4 years).

Fermentis guarantees the product complies with the International Oenological Codex until its Best Before End Date in the storage conditions mentioned above. All our products are also fully authorized per TTB 27 CFR 24.246 prior to and during fermentation.

Each Fermentis yeast is developed under a specific production scheme and benefits from the know-how of the Lesaffre group, world leader in yeast manufacturing. This guarantees the highest microbiological purity and maximum fermentation activity.

The data contained in this technical sheet are the exact transcription of our knowledge of the product at the time of revision. They are the exclusive property of Fermentis®-Division of S.I.Lesaffre. It is of the user responsibility to make sure that the usage of this particular product complies with the legislation.
